Profile

Belinda is a qualified Landscape Architect who brings significant experience to MLA in the areas of strategic open space planning, policy development and land resource and asset management. Through Belinda's project management roles with the NSW Department of Planning & Environment and more recently the NSW Crown Holiday Parks Trust she has developed a strong working knowledge of current NSW planning policies and strategies and their key objectives. Belinda brings to MLA a unique set of skills due to her background as a Landscape Architect working at a strategic level with the DP&E

Belinda's key skills include;

- Stakeholder management – a long track record of developing and maintaining strong relationships with internal and external clients, team members, and peers.
- Project Management – Experience managing projects with multidisciplinary teams, including all budget and resource management with proven ability to deliver positive outcomes and deliver on time and budget. Strong experience with contract and vendor management.
- Financial Management – High level financial and analytical skills, with ability to quickly and accurately deal with figures and understanding of financial management practices including budgets, accruals, costs management and cash flow.
- Policy experience – Ability to write strategic policy, and to advise and guide individuals and teams to ensure alignment with policy direction.
- Problem solving – Intelligent, direct and practical with the ability to make decisions logically and quickly. Strong research and analytical skills.
- Oral and written communications – Excellent communication skills, as well as strong ability to write and communicate with stakeholders at all levels. Ability to influence and negotiate to achieve successful outcomes.
